軟迅科技控股有限公司

(Incorporated in the Cayman Islands with limited liability)

First Quarterly Report **2005/06**

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this report, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors of Sys Solutions Holdings Limited collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM for the purpose of giving information with regard to Sys Solutions Holdings Limited. The directors of Sys Solutions Holdings Limited, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (i) the information contained in this report is accurate and complete in all material respects and not misleading; (ii) there are no other matters the omission of which would make any statement in this report misleading; and (iii) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

1. BASIS OF PREPARATION

The Company was incorporated in the Cayman Islands with limited liability and its share are listed on the Growth Enterprise Market (the "GEM") of The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

The unaudited consolidated results have been prepared in accordance with accounting principles generally accepted in Hong Kong and the applicable disclosure requirements of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the "GEM Listing Rules"). They have been prepared under the historical cost convention as modified for revaluation of investments in securities.

The accounting policies adopted in the preparation of the unaudited consolidated results are consistent with those adopted by the Group in its annual accounts for the year ended 31 July 2005.

In 2004, the Hong Kong Institute of Certified Public Accountant issued a number of new or revised Hong Kong Accounting Standards and Hong Kong Financial Reporting Standards (hereinafter collectively referred to as "new HKFRSs") which are effective for accounting periods beginning on or after 1 January 2005. The adoption of the new HKFRSs had no material impact on the Group's results of operations and financial position.

2. TURNOVER

Turnover represents the net invoiced value of goods sold, after allowances for returns and trade discounts, and the value of services rendered. All significant transactions among the companies now comprising the Group have been eliminated on consolidation.

3. TAX

Hong Kong profits tax has not been provided (2004: Nil) as the Group did not generate any assessable profits in Hong Kong during the period. No provision for corporate income tax for a subsidiary and the jointly-controlled entity established and operated in Mainland China (2004: Nil) has been made as no assessable profits arose from their operations during the period. The statutory tax rate for Hong Kong profits tax is 17.5% (2004: 17.5%). The statutory tax rate of corporate income tax in Mainland China is 33% (2004: 33%).

4. DIVIDENDS

The directors do not recommend the payment of an interim dividend for the three months ended 31 October 2005 (2004: Nil).

5. LOSS PER SHARE

The calculation of basic loss per share is based on the unaudited net loss attributable to equity holders of the Company for the three months ended 31 October 2005 of HK\$2,500,806 (2004: HK\$2,184,618) and the weighted average of 396,180,000 (2004: 395,807,178) ordinary shares in issue during the period.

Diluted loss per share amount for each of the three months ended 31 October 2005 and 2004 have not been presented, as the share options outstanding during the periods had an anti-dilutive effect on the basic loss per share for the respective periods.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

During the period under review, the Group continued to strengthen its performance of main streams line of business, including information technology solutions and services, software development for e-commerce and human resources management, as well as information technology services and consultations, in order to grasp growth opportunities.

FINANCIAL REVIEW

For the three months ended 31 October 2005, the Group recorded an unaudited turnover HK\$2,706,675, representing a decrease of 67% as compared with HK\$8,254,472 of the same period last year. The unaudited gross profit margin ratio for the three months ended 31 October 2005 is 10%, while it was 11% for the corresponding period last year. During the period, we focused on developing our core self-branded human resources management information system solution and reviewing our operation to enhance performance.

The self-branded solution is a web-based software, which could simplify the processes in human resources management, including leave records, salary calculation, staff training management and performance appraisal. The web-based operation mode could especially fit for multi-national corporations in managing human resources duties in a number of branch offices all over the world. It was expected that the performance of the Group will be improved by completion of certain projects of the self-branded solution in the coming year.

The unaudited loss from operating activities for the three months ended 31 October 2005 increased by 17% from HK\$2,048,863 to HK\$2,396,959, as a result of decrease in turnover and gross profit during the period. Overall administrative and operating expenses reduced by 10% from HK\$2,941,583 in the same quarter last year to HK\$2,659,290 in this quarter. Such decrease was due to more efficient method of resources allocation applied by the Group.

OUTLOOK

The information technology industry continues to be highly competitive. We will continue to focus on brand building for our self-developed application solutions, improving efficiency and managing overall administrative and operating expenses. We are confident that our self-developed application solutions could enable the Group to obtain favourable returns and the Group will perform better in current financial year.
